

## WANT "MOVIES" AS CHURCH AND SCHOOL TEACHERS

Charity Organization Heads  
Ask Picture Aids in Field  
of Education.

That motion pictures should be extended to schools and churches was declared at the monthly conference of the Charity Organization Society today.

"There is no reason," said John Collier, General Secretary of the National Board of Censorship, "why this most universal of all languages, this most vital social and educational force, should be tied up by commercial restrictions."

"At present," continued Mr. Collier, "there is no feasible way in which educational institutions can get hold of films which would be unusually valuable to them for teaching and vivifying the study of social and biological problems. In order to get any kind of films they have to stand in line with the moving picture houses and make a contract to take a certain number of films, without knowing in advance anything about the nature of the films."

"As soon as some educational school or public institution makes a protest against this state of affairs motion pictures will begin to be a greater force in education and in religion. The solution of the problem, according to Mr. Collier, lies in a new method of distributing films. At present all films, good or bad, run a certain length of time and then disappear. If a given film is unusually popular, it has unusual historic or scientific interest, its date is identical with that of the cheap, sensational film. There is no way of repeating it more than the specified number of times and no way

of recovering the film for permanent use after it has gone the usual rounds. Michael Furst, who has served on the commission which framed the ordinance scheduled for action before the Board of Aldermen today, said:

"More immorality can be traced to the structural conditions and the darkened motion picture theatres than to the nature of the films presented."

**DR. PRINCE A. MORROW,  
SEX HYGIENIST, DEAD.**

Founder of Societies Which Have  
Accomplished Health Reforms  
in Various States.

Dr. Prince A. Morrow, internationally known as the founder of sex hygiene societies, died at his home, No. 66 West Forty-fourth street, last night, after a short illness.

His first organized effort in relation to sex hygiene was in 1905, when he founded the American Society of Sanitary and Moral Prophylaxis and sent out pamphlets and lecturers describing the ravages of hereditary disease and the way to check the increase of imbeciles by legal prohibitory measures. His work attracted universal attention and twenty other societies were formed. These are headed under the name of the American Federation for Sex Hygiene, the honorary president of which is Dr. Charles W. Eliot, President Emeritus of Harvard College. Because of his campaigns several States have adopted laws compelling those about to be married to exhibit a clean bill of health from a physician.

**MIND CLEAR AFTER 19 YEARS**

ATLANTA, Ga., March 18.—Her mind a blank for nineteen years, since her daughter was born, Mrs. Carrie Bell Jordan today awoke following an operation and asked for her "baby." She could not realize that a tall young woman in the room, herself mother of two children, was her daughter. The brain operation by which Mrs. Jordan's memory was restored was considered a remarkable feat by physicians and surgeons here. It was performed nearly a month ago at a local sanitarium, but its success was not assured until today.

## FOR CONSTITUTION CHANGE.

Senate Bill Puts Question of Calling State Convention.

ALBANY, March 18.—In obedience to the pledge in the Democratic party platform calling for a constitutional convention "at the earliest possible moment," Senator McClelland today introduced a bill providing for the submission of the question, "Shall there be a convention to revise the Constitution and amend the same?" at a special election to be held June 3 next.

If the bill passes and a majority of the electors vote in favor of a convention, delegates will be chosen at the general election this fall and the convention will assemble in April, 1914. The bill provides that delegates-at-large to the convention may be chosen by petition or by State convention.

## SETS ASIDE OWN DECISION.

Publication was made in two Sunday papers to the effect that Supreme Court Justice Hendrick had decided a motion in which his distant cousin, Municipal Court Justice Peter A. Shiel of the Bronx, was an interested party. This publication was the first intimation Justice Hendrick had that Justice Shiel was a party to the action.

The motion was decided in the regular course of business, it came to him among a mass of papers in other actions and was one of the 92 motions decided by the Justice last month. On the envelope containing the papers the name of Justice Shiel, who was one of the defendants, did not appear.

Justice Hendrick today called the attorneys in the case before him and notified them that he intended to set aside

his decision and refer the matter to another Judge. He told them in no uncertain terms that they should have informed him that his cousin was a party to the action.

## SIZZLED AND SHIVERED.

Caledonia's Voyagers Experience  
Varieties of Weather.

The Anchor Line steamer Caledonia, Capt. F. H. Wadsworth, arrived today from across the pond after having experienced several varieties of weather. On Thursday and Friday, while in the Gulf Stream, the thermometer stood at 70 degrees. The passengers were clad in summer attire and went about deck without hats. A breeze was blowing, too, and a rough sea was on. On Saturday morning the weather turned so cold that the passengers couldn't keep warm with their furs on. It continued that way for the rest of the voyage.

## DROVE A CONFLAGRATION.

"Warm for March," Thought Tony,  
on Merry Chariot.

Tony Malleri, a waste paper dealer in Chrystie street, was passing through West Sixty-sixth street, near Central Park West, atop a huge wagonload of scrap paper today. He remarked to himself that it was getting warm for March, and discovered that it wasn't the weather that was so warm.

Some one, evidently mischievous boys, had set fire to Tony's load of paper, and right beneath where he sat driving a merry conflagration was confining. A fire alarm was sent, and engines saved the cart, but the load was a total loss.

## BROKAW BROTHERS MEN'S & BOYS' CLOTHING, HATS & FURNISHINGS

Extreme smartness and smart extremes  
are two different things.

Young men well-informed in the ethics of dress favor the first named quality—but reject the second.

Our clothes reveal our many years of successful experience in the creation of fashions which are abreast of the times and always good form—

And an equal amount of experience in the art of knowing what to avoid.
